Re: Dockets Management Branch (HFA-305)  
Docket No. 98N-1038

Ladies and Gentlemen:

Please consider leaving the irradiation label clearly identifiable on all products that use the irradiation process. As a consumer and mother of four children, I would like to make certain that I never buy this type of product as I believe it to be a dangerous practice which is likely to cause many health related problems in the future. Thank you for your consideration.

Yours truly,
